

Donations are Welcome!!

Donations are Welcome Over the past three years, the program has been a huge success. We've engaged over 125 students in offerings such as robotics, sprouts (garden club), knitting, drama, skateboarding, drumming and much more!

The majority of our funding comes from the 21st Century Grant, federal funds. As with all grant money, our cash flow will eventually slow to a trickle. We are looking seriously at the sustainability of the program and other resources we can tap. There are many other small grants out there and community organizations willing to pitch in a little here and there. We are also hoping for anonymous donations from \$5.00 to \$100.00 to help us meet our goal. If you are interested in helping out you can send donations to the Cambridge Elementary School, memo Cambridge Connections. We appreciate your help and look forward to enriching your child's world.
